## Jock Bell Won West'n Canada Quoiting Championship

Will Bring Back the Silver Quoit and Cup on Friday—  
Defeated Carmichael of Calgary in Finals by  
Score of 21-12

The news of Jock Bell's splendid victory in the quoiting tournaments at Banff Highland Festival and Calgary will be hailed with delight by sporting enthusiasts in Coleman. Further details of his notable victory will be published next week.

BOOST FOR COLEMAN  
BALL TEAM AT FERNIE

ALBERTA FILMED PICTURE  
SHOWN AT THE PALACE

Angelo Gentle Again to the Fore in  
Lining Up the Baseball  
Fans.

Some of Calgary's Notables Seen on  
the Silver Screen in Movies  
of Stampede.

Fernie arranged a splendid ball tournament for Sunday and Monday as part of the Labor Day program, but it was spoiled by the rain. Teams from Creston, Kimberley, Libby, Montana, and Coleman, together with Fernie, were drawn to play.

Fernie and Coleman are to play the finals next Sunday for the \$150 first and \$100 second prize. With the first goes the Chevrolet Cup donated by Crows Nest Pass Motors. Both teams have selected the best players possible, ensuring good games in which a keen contest is anticipated. Angelo Gentle, who has been the king-pin in keeping alive the game of baseball in Coleman, states it is up to some of the fans to go to Fernie on Sunday and give the Coleman players some encouragement and help them to land their first prize.

Tom Holstead of The Journal left on Friday for his annual vacation and planned on enjoying a touch of city life at Calgary and motoring out to Banff to take in the Highland Festival and sports arranged by the C. P. R.

The picture, "His Destiny," shown at the Palace on Monday evening, depicting scenes from the Calgary Stampede, and the opening parade in 1928, was of particularly local interest. Neal Hart and Barbara Kent were the stars, and some well known men in Calgary were seen in the pictures. In the parade was noticed Pat Burns riding with others, while Guy Weadick, stampede manager, is given a fair share of publicity. Some of the incidents of the picture were "shot" in the Bow River Valley and in the vicinity of the Prince of Wales ranch at High River. The scenes from the old timers dance in Calgary were very good, though a touch of modernism was given them by the appearance of a well-known lady often seen in the pictures, who was posing as one of the old-time dames of Calgary. The particular value of the production is that it gives Calgary valuable publicity, especially the stampede.

Coleman Masonic Lodge holds its regular monthly meeting this evening at 8 o'clock.

Rt. Hon. L. C. M. S. Amery, secretary for the Dominions in the late Baldwin Administration, who arrived in Canada recently on the Empress of Australia, had as his objective in this country, the climbing of the 11,000-foot Mount Amery, named after him, in the Canadian Rockies. There is no official record of this mountain ever having been climbed before.

GOING AFTER BUSINESS - - -  
AND GETTING IT!

Contractor J. S. D'Appolonia has been awarded another contract by the Canadian Bank of Commerce, this time at Drumheller, where he is erecting a substantial addition to their present building. This is the third contract he has been awarded by the bank. He also has completed the erection of a schoolhouse near Pincher Creek. If there isn't work at home to be done, "Dapp" just goes after it elsewhere, and so keeps busy throughout the year. He has a number of other contracts in sight.

Pinch-week-end picture at The Palace Theatre. Be sure to come.

## Climbs Mountain Named After Him

This attempt which was undertaken with the famous Swiss guide Edward Feuz, Colonel Amery at one took the 2800-mile trip across Canada to Lake Louise whence in company of Feuz and A. O. Wheeler, honorary president of the Alpine Club of Canada, he set out for the peak located near the Great Columbia fields near the junction of the Alexandra and

Saskatchewan Rivers. Lay-Out shows (1) the vast rampart of Mount Amery with the great ice field below (2) Edward Feuz, Swiss guide, all set for the ascent (3) A.O. Wheeler (left) and Rt. Hon. L. C. M. S. Amery, Hotel just prior to setting out north with a pack train to locate and climb the peak.

DRUMHELLER MINERS'  
UNION FAVORS CHANGE

Six Hour Day, Five Day Week Proposal Submitted to Trades and Labor Congress.

DRUMHELLER, Aug. 31.—The following is the context of the resolution presented at the Trades and Labor Congress convention at St. John, N.B., by A.B.C. Local Union No. 59, Mine Workers of America, and which has been mentioned in recent press dispatches:

"Whereas, miners of Drumheller are only employed for five months in the year after an extensive march for wider markets for Alberta coal, which has failed miserably, and has been used against the miner in negotiating contracts as a basis for reduction;

"Whereas, the miners of Drumheller are in dire poverty and are compelled to leave their homes six months in the year to seek employment in other industries, to the detriment of their fellow workers, by accepting lower wages for years, and many miners in Drumheller have had to accept these conditions, credits being cut off and in many cases having had to starve in gaolhouses, or starve to death;

"Therefore, be it resolved that the Trades and Labor Congress assembled at their next session, stress every point possible through their legislative bodies to enforce a six-hour day and a five-day week for all miners in the Dominion of Canada."

The officials of the U.M.W.A. here consider that, if the six-hour day and five-day week were put into effect, there would be a 25 per cent increase in the working days for the miners. As President Livett says, the present position is one of three months hurry and nine months worry, while, if something is not done, it will come to the dole system the same as in England. This is not the first time the unemployment situation has been brought before the Congress along these lines, as, as far back as 1918, the shorter day and week proposition has been advanced.—Calgary Albertan.

BIG PAYROLLS IN PASS MINES

FRANK.—This is pay week in Frank. The following amounts will be paid out: Bellevue West C. & C. \$30,000; Hillcrest C. & C. \$20,000; Little West C. & C. \$20,000; Frank Coal C. & C. \$22,000; Blairmore West C. & C. \$7,000; total \$99,000. All this money was paid over in Frank except Blairmore by the Union Bank.—20 Years Ago item in Lethbridge Herald.

Thursday, Sept. 5, 7.30 p.m., Woman's Auxiliary; Friday, Sept. 6, 7 p.m., choir practice; Sunday, Sept. 8, 7 p.m., Evensong; 2.30 p.m., Sunday School; 8.15 p.m., Vestry meeting; Tuesday, Sept. 10, 4.30 p.m., Junior W.A. meeting.

Local News

Mr. and Mrs. Attwood of Ogden, accompanied by their daughter Mabel, called on Rev. and Mrs. Currie last Thursday on their way home from a motor trip west.

Mr. and Mrs. Harry Olson, on their return from Vancouver, where they had been spending their vacation, found their house alongside the tracks east of the depot had been broken into and table linen and silverware stolen. The back door had been forced, the lock and some of the woodwork being broken off, considerable force having been used to effect an entrance. Mr. Olson is section foreman for the C.P.R. here.

## Forest Fires Caused Tense Week-End In the "Crow" District

Prolonged Period of Dry Weather and High Winds Caused Destruction of Valuable Timber.

POWER LINE BURNED

Pass Towns Experience Night of Darkness While Smoke and Fumes Add to Danger.

Darkness reigned supreme in the Crows Nest Pass on Saturday night, Fernie, Coleman, Blairmore, Hillcrest and Bellevue being without electric light or power from 7.30 till midnight. The cause of the cutting off was that a number of poles carrying the transmission lines west of Fernie were burned by forest fires, and that city was also without telephone connections for a great part of the day.

Great surprise was expressed that the plant at Crows Nest Lake was not ready for action, and still greater surprise when it became known that there was no shift on duty, there being only two shifts working eight hours each. This plant is an auxiliary to the plants of the East Kootenay Power Co. at Bull River and Elko, and is capable of handling the load from Kimberley to Hillcrest.

The generators of the International Coal & Coke Co. were giving service intermittently from about 11 p.m. till midnight, when it is reported that the plant at Crows Nest Lake took up the load and so restored complete service to the Pass.

Theatres were heavy losers. Saturday is the big night, and the Palace was filled with expectant people waiting to see the special picture, "His Destiny." The management, after waiting for an hour to see if the power would be given, finally decided to return patrons their money, much to their disappointment that no show could be given.

Added to the tenseness of the occasion was the dense smoke and burning fumes of the forest fires a short distance west of the Divide, and about twelve miles from Coleman. A telegram was received by Forest Ranger Boulton at 9 p.m. from Constable Dore, of the B. C. provincial police, despatched from Corbin, stating that the fire was out of control between there and McGillivray station, and the C.P.R. telegraph operator here also received word over the wire that the agent at McGillivray station intended leaving, as soon as the train came in, for Crows Nest, as the flames were perilously near the station. He left that night but returned next morning.

## Down Hearted and Lonely

To a widow's Grief is always added Worry. There are funeral expenses to pay; doctors' bills; and legal costs—these are the common lot.

But the farmer's widow has handicaps unknown to even the most unfortunate of her city sisters. For the seed is unown; or the crop unharvested—and that means hiring help. And there is the interest on the mortgage—and little to meet it with. And there are implements to buy; stock to purchase; seed to obtain—

Sell? But it is the wrong season, and if she moved to town, for what task is she fitted and where could she go? No! Her whole hope of comfort and independence for herself and her children is on the farm—if only there be ready money to meet the immediate need.

And that is exactly what life assurance provides. Here is what a Sun Life of Canada policy assures: A man of 35, by payment of a modest premium yearly (decreased every year by dividends on the current scale starting at over \$65 the second year) can assure that his widow or children receive \$5,000 in cash at his death and, in addition, a minimum income of \$30 a month for five years while they gain experience and re-adjust themselves in the surroundings they know and love.

The Sun Life provides a policy to meet every need. Consult our representative in your district. It entails no obligation.

## Developing Sentiment For World Peace

Despatches appearing in the daily papers telling of the rupture of relations between Soviet Russia and China, with raids along the border between the two countries and the imminence of open warfare; despatches reporting the strained relations that have developed between the Jews and Arabs in Palestine, ending in riots and a threatening vigorous military action by the British Government as the mandatory power in Palestine; despatches outlining the difficulties confronting the reparations conference at the Hague, in reaching some amicable and satisfactory solution of the financial problems arising out of the Great War; despatches recording the communistic activities of Soviet agents in all parts of the world,—all reveal how far distant is that day when the nations of the world can rest assured of universal, permanent, world-wide peace.

In his recent masterly address before the Canadian Club, at Regina, Hon. Winston Churchill declared with emphasis and without any qualification, that the greatest need of Great Britain and the Empire today was a long period of world peace. Great Britain, he said, was making wonderful progress. It was more prosperous than ever before, more people were employed, the standard of living was higher, but population was larger, taxation enormously heavy, and a long struggle ahead to wipe out the huge burden of war debt. But, he reiterated, all that was necessary was a long period of peace to enable the Old Land and the whole Empire to re-establish themselves, develop their great resources, and thus enter upon the greatest era in their history.

Mr. Churchill, therefore, urged the Canadian people to do everything to develop a strong sentiment for peace. Such a sentiment existed and was growing stronger every day. Strong sentiment everywhere was striving for it. But his message was to each and every individual to do their part, to think peace, talk peace, act peacefully. Only so would the nations themselves become peaceful in thought and outlook; only so could statesmen effect those compromises and develop those policies essential to world peace.

Finally, Mr. Churchill confidently predicted that, if such a state of mind was cultivated by the masses of the people, the longed for peace would be maintained. There would, no doubt, be uprisings and troubles, but the kindliest of feelings toward each other, to refrain from looking down upon their fellow-citizens of other racial extraction as inferior to themselves, to be considerate of their customs and habits.

It is likewise in the interests of Canada, and of world peace, to study international problems, and to resist to the utmost those tendencies to erect walls of division between this nation and that, whether those walls be military, naval, social, or in relation to matters of trade and commerce. It should be the aim of the Canadian people to be friendly with all other people, and, instead of emulating any of them in policies of isolation, exert their influence to the end that cordial goodwill be developed instead of suspicions and antagonisms.

### Canada-Bolivia Air

#### Mail Is Announced

Arrangements Completed At Ottawa And Rate Fixed

Arrangements for air mail service to Bolivia and Chile have been completed, according to an announcement of the post office department at Ottawa. Mail will be carried over Canadian and United States services to Cristobal, Canal Zone. Letters and parcels for Bolivia will then go to Mollendo, Peru, and thence to its destination by train. Mail to Chile will be conveyed from Cristobal to Santiago by air. The rate from Canada to Bolivia is 55 cents for each ounce or fraction thereof and to Chile 70 cents.

### Sheep Ranching Expanding

The sheep industry from a ranching point of view shows signs of development in the western department, particularly in British Columbia, states the Department of Agriculture. Last fall upwards of 10,000 head of ewe stock were bought in Alberta and shipped to the interior points of British Columbia. In 1928 the demand for range ewes exceeded the supply and the demand promises to be equally as good this year.

For your copy, write The Dr. Williams' Co. Limited, Montreal.

### Science Appears To

#### Be Supplanting Nature

German Has Evolved Coal Out Of Chemical Substance

Eight years ago a party of British research workers in British Guiana noticed a bird busily building its nest with a substance that looked very much like cotton. On closer inspection, however, it proved to be a plant previously thought useless which had been shredded by the bird. Today, in Essex and Sussex, England, on soil that has been found useless for ordinary cultivation, hundreds of acres of the new "cotton" plants are flourishing. Nearly four million pounds of the artificial cotton are being produced at a cost of eight cents a pound less than the real thing.

Every day sees a new discovery in the scientific world. Two German chemists have just succeeded in obtaining sugar from sawdust; a French scientist is transforming lumps of coal into real diamonds! It seems that the day is fast approaching when we shall no longer be dependent on nature; the scientist will supply all our needs.

"Take the case of the German who recently took eleven pounds of a chemical substance, and, after treating it for twenty-four hours, produced in its stead eleven pounds of coal! The modern scientist is producing in hours that for which nature would require many centuries! Having produced coal from vegetables, the scientists are now getting their money's worth out of the coal. Petrol, nap, rubber, oil, fertilizers, ammonia and alcohol are only a few of the substances to be derived from a lump of coal.

But even now the scientists are not satisfied. They are now turning their attention to peanut shells to produce artificial silk.

#### Shows Big Increase

According to a statement issued by the Alberta Government, dairy production in the province increased over 13 per cent. during the first six months of this year, as compared with a similar period of last year.

An owl's flight is noiseless

### New Nickel-Copper Find

Promising Discovery On Manitoba-Ontario Boundary

It is reported that a promising nickel-copper discovery has been made in the vicinity of Ingolf on the Ontario-Manitoba border. Assays show 20 per cent. copper, 1 per cent. nickel and about three dollars worth of gold per ton. Further assay work is proceeding at the present time. It is stated that Ingolf that the find is about 600 feet wide and one and a half miles long, with an outcrop about six miles east. There is a large body of the same mineral on the Manitoba side but it is closed for staking-yet.

## WEAK, WATERY BLOOD

Is the Cause Of Much Distress and General Weakness

Anaemia — which really means weak, watery blood is responsible for the pale faces, thin cheeks, dull eyes and drooping figures one sees so frequently. It is the chief cause of headaches, weak backs, aching limbs and general nervousness. Every weak, anemic person should win the right to be well by refreshing thin, weary bodies with the new, rich, red blood so promptly supplied by the use of Dr. Williams' Pink Pills. This new blood reaches every organ and nerve in the body and quickly banishes all those troubles that have their origin in watery blood. Among those who have found new health and strength through the use of Dr. Williams' Pink Pills is Mrs. Elizabeth Evans, Amherst, N.S., who says: "When I began taking Dr. Williams' Pink Pills I was so weak and run-down that I could scarcely go about the house, and found housework almost impossible. I was taking cod-liver oil, but with no apparent benefit. I had often read about Dr. Williams' Pink Pills and decided to try them. Soon I found they were helping me, and under their continued use I regained good health. The pills also completely relieved my son of St. Vitus Dance, to which he had every reason to praise them."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### An Unusual Court Decision

Rules Dust Beneath Floor Is Property Of Hungarian Tenant

The Supreme Court of Hungary decided recently that, although the floor of an apartment belongs to the landlord, the dust collected beneath it is the property of the tenant. The decision is worth \$2,500 to Frau Simon Sichelmann, for the dust over which the case arose is gold dust which accumulated there during the fifteen years that her husband carried on the trade of goldsmith. On his death the widow decided on a floor mining enterprise which her landlord opposed, claiming the dust and floor both as his. Nine pounds of gold dust already have been recovered.

### Six Tip Scale At Pound

German Fruit Farmers Have New Variety Of Strawberry

A new variety of strawberry, called "Upper Schlectian," so enormous that six luscious berries alone tip the scale at a pound, is the latest offering of the industrious fruit farmers of the Vierlander, near Hamburg. The new berry is perfectly formed, of appetizing rich hue, with a delicious flavor.

The Vierlander, a fertile low-lying district in the vicinity of the river Elbe, is justly famous, for its people have preserved many of their fine fruits and vegetables.

Nights Of Agony come in the train of asthma. The victim cannot lie down, and sleep is driven from his brain. What grateful relief is the immediate effect of Dr. J. D. Kellogg's Asthma Remedy. It banishes the frightful conditions, clears the passages, and enables the afflicted one to again sleep as soundly and restfully as a child. Insist on the genuine at your nearby druggist.

Might Not Be

"One with too many!" exclaimed Mrs. Hints, as she glanced at the headlines of her husband's paper. "I suppose that is an account of the doings of some bigamist?" "Not necessarily, my dear!" replied Mr. H., without daring to look up.

If a boy doesn't earn more than he gets he will never amount to much as a man.

### Hunters

Take Minard's along for any mishaps in the woods. Good for sprains, cuts, burns and bruises.

### Steady Decline In Immigrants To States

But American Aid Coming To Canada In Increasing Numbers

The number of Canadians who emigrate to the United States continues to decrease. This is shown by figures issued by the Bureau of Immigration, at Washington, for the period between January to June 30, 1929.

During the period 29,447 immigrants entered from Canada, while during the fiscal year ending on the same date, the influx of Canadians totals 64,444. The year 1928, Canadian figures were 73,156.

An analysis of the department indicates a steady decline in the number of native-born Canadians entering the United States. Figures are based on the non-quota visas which native Canadians must obtain for immigration. They are for the years 1925 to 1928 (inclusive): 102,169; 82,462; 70,136; and 54,704.

The department notes that a decrease of nine per cent. in the total immigration to the United States for the fiscal year ending June 30, 1929, was largely accounted for by the decline in the number of immigrants from Canada, the Irish Free State and Mexico. Canadian immigration dropped 12 per cent.

On the other side of the ledger figures available at Washington indicate a new high for United States immigration to Canada of 30,706 for 1929. This was a jump of 30 per cent. over the 1928 estimate of 21,363. United States citizens have entered Canada in increasing numbers from 1925, when only 15,914 crossed the border. The previous high year was 1922, when 29,412 emigrated to the Dominion.

### RECIPE FOR SWEET DESSERT

For those who like a sweet dessert at the end of the meal, this recipe will have a particular appeal.

**Butterscotch Pie**  
1 cup brown sugar.  
2 tablespoons butter.  
2 tablespoons flour.  
2 egg yolks.  
1/4 teaspoonful salt.  
1 teaspoon vanilla.  
1 Cup Borden's St. Charles Milk.  
1/2 cup water.  
2 egg whites, beaten stiff.  
4 tablespoons granulated sugar.  
Baked pastry shell.

Beat together the brown sugar, butter, flour, egg yolks and salt. Add the milk diluted with the water and cook in a double boiler until thick. Add the vanilla, cook slightly, and pour into the pastry shell. Cover with a meringue made with the egg whites and the granulated sugar. Brown lightly in a very low oven.

**A Power Of Its Own.**—Dr. D. D. Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

### What's In a Name

Some Arouse Unpleasant Memories As Chinese Very Well Know

Even the Chinese, unemotional as they seem, find that old names and then arouse unpleasant memories. A thousand years ago Tartar invaders named a city Maneking. The Chinese captured it in the twelfth century and named it Yen-Shan-Pu. Along came the Tartars again a few years later and they rechristened it Chung-tu. Then came Kublai Khan, who made it Yenching. After being called Ta-tu, and Cambaluc it was named Peking 500 years ago, and clung to this designation until recently. The late revolution gave it a new twist and it is now Peking, which means "northern peace."

### Would Be Improvement

Automobiles are manufactured and sold that will travel as fast as 100 miles per hour on a level highway. That ought to be fast enough. The manufacturers might now turn their attention to front end bumpers that will absorb the shock when two cars meet head on and to safety devices for the protection of passengers when the car leaves the highway. Now that speed has been achieved we might pay some attention to safety.

Minard's Liniment—The King of Pain.

### Inventor Of Gramophone Dead

Emile Berliner Also Evolved Telephone Transmitter and Established Milk Standards

Emile Berliner, inventor of the gramophone, the first disc record talking machine, and the telephone transmitter, died recently at his home in Washington, D.C. Mr. Berliner was 70 years of age.

Following his arrival from Germany in 1870, he engaged in various vocations. He sold glue, painted backgrounds on enlarged photographs and travelled as a salesman for a Milwaukee wholesale house.

In 1877 he moved to Washington and began experimenting. While at work in a store he evolved the idea of the loose contact transmitter or microphone, which placed the telephone on an advanced commercial basis, some three years after Bell and Watson had invented the telephone in Boston. Later the microphone was to become also the soul of radio broadcasting.

In 1887 he achieved the second scientific discovery that placed his name in the forefront of inventors by giving the world the gramophone. This talking machine utilized the disc record, also his invention, and a horizontal wave groove, rather than the cylinder up and down groove. He invented and perfected, as well, the present method of duplicating disc records.

For his gramophone invention he was awarded the John Scott medal and Elliott Cresson gold medal by Franklin Institute, Philadelphia.

Mr. Berliner exhibited his adaptability in yet another sphere by interesting himself, in 1900, in the cause of the high death rate among babies, which he traced to the dangers of raw milk. He was instrumental in establishing milk standards, which were accepted in modified form by all the large cities of the country.

In his late years Berliner was associated with his son Henry in an advisory capacity for the development of the helicopter—an aircraft capable of rising straight up from the ground.

Minard's Liniment—Used for 50 years.

### First Grain Shipment

Over the H.B. Road

Small Shipment Being Sent To Great Britain This Month

Word was received by H. A. Dickson, chief engineer of the Canadian National Railways, that the first shipment of grain to Fort Churchill is now on its way over the Hudson Bay Railway.

The grain load of about one ton in small packets, which will be used for the purpose of advertising the route to Great Britain, will be placed on the Hudson Bay Company's steamer "Ungava," leaving Fort Churchill for Europe early in September.

A newspaper reporter was sent to a fashionable dance for "copy." He described one of the dancers, a woman of exceptional stature, as possessing a form "that Jumbo might envy."

In his late years Berliner was associated with his son Henry in an advisory capacity for the development of the helicopter—an aircraft capable of rising straight up from the ground.

## SHIP YOUR GRAIN

— TO —

## McBean Bros.

Crop conditions the world over appear to be unsatisfactory this year, so much so, that we consider higher prices warranted than those prevailing. It is our opinion, given after careful study of the world conditions, that our wheat should be worth, today \$2.50 per bushel, with considerably higher prices later on. Assuredly, that importing countries take \$25,000,000 bushels, which is a moderate estimate. As our crop is only 22,000,000 bushels, and European crops this year are short of last, we have every indication of a shortage in supplies before another crop is harvested. For this reason we look for wheat to sell at \$2.50 per bushel, later at \$2.75, and on at \$3.00.

Large Double Book 120 Leaves Finest You Can Buy! AVOID IMITATIONS

### League Has Varied Duties

No Matter Too Large Or Too Small For Attraction

A number of activities are to be credited to the League of Nations. Recently, for instance, it dealt not only with the all-important matter of disarmament. It considered how to "protect young female performers in music-halls and similar establishments." It also discussed the prevention of counterfeit coinage, and suggested measure for discouraging criminals from making and circulating false money. Nothing is too large for the League, nothing too small. Which is as it should be, and does great credit to the League staff and subsidiary committees.

Miller's Worm Powders prove their value. They do not cause any violent disturbances in the stomach, any pain or griping, but do their work quietly and painlessly, so that the destruction of the worms is imperceptible. Yet the thorough, and from the first dose there is improvement in the condition of the sufferer and a cessation of manifestations of internal trouble.

### A Modern Sandoz

Saxton Brown lays claim to being Britain's strong man. He has let motor cars run over his chest and once, when a wheel slipped, it went over his throat. He suffered nothing more than a "sore throat." He can pull motor-coaches filled with people and weighing over three tons, with his teeth.

A driverless motor-car controlled by radio has recently been exhibited.

## SITUATION IN THE HOLY LAND REMAINS ACUTE

Jerusalem.—The danger of Moslem uprising in Syria and Transjordan as a result of the continued Jewish-Moslem rioting in Palestine, remained acute, although the arrival of additional British troops and warships somewhat relieved the tension in the larger Palestine centres.

Clashes between Arab demonstrators and police in Damascus, many strong demonstrations in Syria and reports of Arab movements in Transjordan added to the disorders, which continued intermittently in various regions of Palestine.

A third French warship has been ordered to Syria, and the French border guard heavily reinforced.

Fighting at Haifa, where Arabs attacked British naval forces was the most serious reported in Palestine. The Arabs were repulsed by the British force and troops continued their efforts to drive out looters. The non-Jewish quarters at Haifa have been evacuated. G. H. Sykes, British liaison officer, said that 10 Jews were killed there, and all Englishmen were armed by the naval officers. About 700 Jews were evacuated from Haifa and concentrated at Haifa Haicramet, at the foot of the Carmel. Approximately 600 persons were packed in one private house throughout the night.

Authorities apparently were making every effort to avoid the danger of Moslem outbreaks in the areas outside the Palestine borders as the British troops moved to end the disorders in outlying sections of Palestine and to evacuate all residents in danger of attacks.

### Liquor Short-Circuiting

Closer Co-Operation Between Federal and Provincial Authorities in Ontario

Ottawa.—Closer co-operation between federal and provincial authorities for the prevention of the short-circuiting of liquor into Ontario, was discussed at a conference between Sir Henry Drayton, chairman of the Ontario Liquor Commission, and Hon. James A. Robb, minister of finance and acting minister of national revenue, here.

At the conclusion of the conference, Sir Henry expressed satisfaction with the conclusions reached. Mr. Robb, in his capacity of minister of national revenue, had given him a very good hearing, said the Ontario liquor board chairman.

In addition to Mr. Robb, Sir Henry R. W. Bredner, commissioner of customs, and G. W. Taylor, commissioner of excise, attended the conference.

### A World's Record

Saskatchewan University Puffed Establishes New Mark

Saskatoon, Sask.—"Lady Victoria" officially at a "Barred Plymouth Rock Puff No. 440, property of University of Saskatchewan," has laid her 33rd egg, thus establishing a world's record, surpassing that held by White Leghorn No. 361, belonging to the University of British Columbia, which held the record with 351 eggs in 52 weeks, laying her 352nd in the day after the close of the year.

"Lady Victoria" may still beat her own record as her year does not end for some days. The 33rd egg greeted Professor R. K. Baker on his return from a trip as head of the poultry department to the convention of poultry science held at Alabama Polytechnic, Auburn, Alabama.

Cold Weather Halts Hostilities Manchuria.—Both Chinese and Russian forces massed along the Manchurian frontier were driven from their trenches by freezing weather. The troops sought shelter from Siberia's cold in the homes of farmers and in settlements along the border region. It is believed the low temperature would decrease the number and intensity of border clashes.

### Derby Fliers Killed

Boston, Mass.—"Red" Devereaux and his mechanic were killed, and a third man was injured when the Philadelphia-Cleveland Derby plane, believed to be piloted by Devereaux crashed upon its arrival at the Boston airport. The plane was the second of the derby to reach here.

W. N. O. 1801

### WINS NOTABLE VICTORY

Hon. Philip Snowden, British Chancellor of the Exchequer

### Route Not Selected

Air Mail Route To Coast Awaited Report From Technical Flying Edmonton.—No selection of a through air mail route to the Pacific Coast has yet been made, declared G. Herring, of Ottawa, superintendent of air mail service for the Post Office Department, when seen on his arrival from Calgary.

Reports will be obtained from technical flying men dealing with service safety and the route offering the greatest rapidity of operation before anything definite will be settled in connection with the through line, said Mr. Herring.

There has been an impression that the through line was to run by way of Calgary, or that the southern route would be given the initial try on account of Cammore being selected as the terminus for the service that will open up by next month. Mr. Herring points out that Cammore was selected as it gave these operating the air mail service two hours leeway in making connections with the train for the coast. It was not to be taken as indicating the Department's choice of the final route to the coast, as that has not been considered as yet.

### May Not Have Rights

Prince May Not Benefit From Reported Oil Discovery On Ranch

Ottawa.—If the reported discovery of oil on the Prince of Wales' Alberta ranch "E.T." is substantiated he may or may not benefit from the "find" depending upon the action he has taken. In a recent interview his royal highness referred to the discovery of oil in the neighborhood, but suggested he could not profit since the petroleum and natural gas rights and the mineral rights of the property were vested in the crown.

The mines branch of the Department of the Interior say, however, if such is the case the Prince may, by application to the Dominion lands agent in the district, secure a lease on the petroleum and natural rights on his land.

The title of the "E.P." ranch is an old one, and it is also possible that when he purchased the title he may also have acquired the mineral and petroleum rights. In that event he may benefit from the discovery of oil simply by continuing to pay the yearly rental charge.

### Moslem Revolt Serious

British Marines Open Fire In Attempt To Quell Arab Attack

Cairo.—Arabs attacked the suburb of Tulkeram and Jenin, northwest of Jerusalem, and advanced behind intermittent fire according to advices received here from Jerusalem. Ten Jews were wounded in rioting at Beisan and nearby points. Police repulsed them. Fighting continued in the western and southern parts of Jerusalem the advices said.

British marines opened fire at Haifa, in an attempt to quell an Arab attack on the Jewish quarter of the city in which many were killed and wounded, among both Jews and Arabs, according to reports received here by the Jewish Telegraphic Agency. The marines fired on both the Jews and Arabs, it is stated.

Another report received in Cairo described Jerusalem as being in grave danger, with an army of 2,000 armed Arabs, including Druse tribesmen, marching on the city.

Atoms Added To Radio Noises Schenectady, N.Y.—To join the vast army of radio performers, now comes atoms. Small matter, to be sure, but nevertheless audible, as was proven in a recent broadcast over station WGY here.

## Rumors Of Ontario Election In November

But Premier Ferguson and Cabinet Members Turn Aside All Queries

Toronto.—The political pot in Ontario has begun to simmer. Rumors of an election this fall are heard on every hand—but Premier Howard Ferguson and members of his Cabinet have, so far, deftly turned aside all queries with non-committal answers.

The present government was elected December 1, 1928, and in the normal course of events would have more than a year's tenure of office ahead of it. The government has not seen fit to state that an election will not be held before the expiration of the regular term—but neither will they say an election will be held.

Hon. W. E. N. Sinclair, Liberal leader, who has been touring various sections of the province, has been predicting an election this fall and has been urging preparedness on the part of local Liberal organizations.

One source has it that an election would be held some time during the first two weeks in November.

Premier Ferguson had no comment to make on this.

## VICTORY IS WON BY SNOWDEN AT HAGUE MEETING

The Hague.—The deadlock which has delayed result of the international reparations conference for three weeks ended with a victory for Rt. Hon. Philip Snowden, British chancellor of the exchequer.

After an eight-hour session, in which delegates of France, Belgium, Italy, Japan and Germany met with the British delegation, Snowden and his colleagues withdrew and evolved the project which was accepted by the other creditor powers a few hours later.

According to the British Communiqué announcing the accord, Snowden got 83 1/2 per cent. of the 48,000,000 marks (about \$12,000,000) which he demanded as an increase in Britain's share of the reparations payments. This increase amounts to 40,000,000 marks.

The chancellor of the exchequer—who looked tired and frail and anything but victor after the conference—also got 80 per cent. of his demand for 120,000,000 marks share in unconditional annual payments. This share amounts to 96,000,000 marks (about \$24,000,000)—which is not an increase in payment but represents guaranteed payment on specified date.

In addition, the British won an important concession for their coal industry when Italy agreed to buy 1,000,000 tons of coal annually for three years from British mines. This concession met the third British demand—a means of relief from too long a period of German payments by deliveries in kind.

The accord marked the end of the hardest fight at any European conference since the world war. It left open, apparently, only the consent of Germany to re-arrangement of some payments and the German spokesman said that would be forthcoming.

French correspondents described the accord as "complete capitulation to Snowden."

## To Conquer Namesake Peak

Rt. Hon. L. C. M. S. Amery, former secretary for the Dominions in the Baldwin administration, foregoes politics for mountain climbing, and in company with A. O. Wheeler, president of the Alpine Club of Canada, (left in picture), sets out from Lake Louise to climb Mount Amery,

## TOURING CANADA

Randolph Churchill, 18-year-old son of Winston Churchill, who is with his father on a tour of Canada. The photographs was taken on his arrival in Toronto.

## Proves Northern Air Route Is Reliable

Monoplane Makes Non-Stop Flight Over Klondike Trail To Dawson

Dawson, Y.T.—Completing a non-stop flight of 860 miles from Alkivik, at the mouth of the Mackenzie River delta in the Arctic, the western Canadian Airways Fokker monoplane, equipped with pontoons arrived here, covering the distance in six hours and 45 minutes.

The machine, piloted by S. W. L. Britnell, had as passengers, O. S. Finnie, director of the northwest territories and Yukon, his secretary, G. D. Murphy, L. A. Giroux, legal adviser and mechanic W. S. Trill.

The flight was instituted by the Dominion Government for purpose of testing the reliability of the air route and as part of its scheme to open up air communications with the remote sections of Canada.

The route followed was via McDougall Pass, made famous during the first Klondyke gold rush, down the Porcupine and Yukon Rivers to Dawson.

## Resources Will Be Discussed This Fall

Settlement For Alberta and Saskatchewan Is Looked For

Edmonton.—Natural resources and the conclusion of negotiations for the transfer to Alberta of its public domain will be up for discussion again some time this fall it is expected by Premier Brownlee.

Asked as to the present standing of the question, the Premier said that no official communication from the Ottawa Government in respect to a new offer has yet been received, but the provincial government has been given to understand in other ways that Ottawa's attitude in the matter will be to extend to Alberta and Saskatchewan the same plan of settlement as in the case of Manitoba.

### Claims Record

Cincinnati.—Before pulling the ring to open his chute, Rex Harker, 23, daring East Liverpool, O., flyer, leaped 9,600 feet here. He claims the world's record for delayed parachute jump, having stepped from the plane at a height of 11,800 feet.

## Given Entry Rights

United States Old Men Are Admitted Into Canada After Some Delay

Ottawa.—A party of United States old men including executives and geologists, which was held up at the international border at Sweetgrass, Montana, has been admitted into Canada. W. J. Egan, deputy minister of immigration, stated that the minister's discretionary power, under the new "contract labor" order-in-council, had been exercised.

Admission of the "immigrants," who were en route to Alberta to investigate oil areas, was approved after receipt of a communication by the Department of Immigration. By the "order-in-council" which took effect August 7, entry into Canada of contract labor is forbidden, unless approved by the minister of immigration.

The order-in-council must be distinguished from the Alien Labor Act under which entry of complaint by some person or organization was a prerequisite to prosecution. Onus of preventing the admission of contract labor, under the order-in-council, now rests upon the Department of Immigration.

## Urges Shorter Day For Canadian Miners

Six Hours Asked In Resolution To Labor Congress

St. John, N.B.—Six hour days for miners featured a resolution by Drumheller, Alberta, local union number 59, which was presented at the opening session of the Trades and Labor Congress, of Canada, here. The resolution stated that inasmuch as the miners were employed for only five months in the year, that an extensive search for wider markets for Alberta coal had failed miserably and that this had been used as a basis for reduction in miners' wages at Drumheller; they, therefore, urged a six-hour day and a five-day week for all miners in Canada.

## Seed Cleaning Plant

Manitoba Is Promised Plant Similar To Saskatchewan

Winnipeg.—Manitoba will shortly have a registered seed-cleaning plant, it was indicated by Hon. W. R. Motherwell, Federal Minister of Agriculture.

"As soon as the Manitoba seed growers are ready, we are prepared to give them a similar service to the one we are providing in Saskatchewan," Mr. Motherwell stated.

## JOHN W. DAFOE CHOSEN BY U.S. FOR PEACE POST

Ottawa.—John W. Dafeo, of Winnipeg, editor of the Manitoba Free Press, has been chosen by the United States Government to serve as non-national commissioner on the part of the republic on the international commission appointed under the treaty for the advancement of peace between the United States and Germany.

The treaty, which sets forth that all disputes, after ordinary diplomatic proceedings have failed, shall be referred to the international commission for investigation and report, was signed at Washington on May 8, 1928.

The appointment of Mr. Dafeo marks the second occasion on which a Canadian has been signally honored by the United States Government through selection for service on a commission acting for that Republic.

Senator Raoul Dandurand last year was chosen on a similar commission for the advancement of peace between Brazil and the United States.

Mr. Dafeo was approached by Hon. William Phillips, United States minister at Ottawa, through Dr. O. D. Skelton, Canadian under-secretary for external affairs. It was announced that Mr. Dafeo had informed Mr. Phillips he is deeply conscious of the honor which the President of the United States has conferred recognizing the responsibility involved has much pleasure in accepting the designation in question.

The International Commission being set up by the United States and Germany, is to have five members, of whom Mr. Dafeo is the first named. Each government is to make a national commissioner as well as a commissioner from a third country and then a fifth commissioner is to be named by common consent of the two governments from some third country.

## WANT ECONOMIC CONFERENCE TO BE HELD HERE

Montreal.—The British Government is ready to hold an economic conference with the Dominion and to hold it in Canada, Right Hon. J. H. Thomas, Lord Privy Seal and Minister in charge of unemployment, told the Canadian Club at a luncheon tendered him here.

Mr. Thomas said that he had consulted members of the Canadian Government and made definite proposals, but such matters should first be discussed in Parliament.

He has also talked to heads of many companies, including E. W. Beatty, K.C., of the Canadian Pacific Railway, who had authorized him to say that he was not only sympathetic to proposals, but thought them a good business.

Mr. Thomas said that he wanted more British capital to come to Canada, and also that it be not a case of absent ownership. He wanted to see British brains and Canadian brains working out the problems with which the Dominion is faced at a period which preceded the growth of the United States, Canada, he believed, could avoid many of the mistakes of the United States.

## Work Nearly Finished

Three Weeks Will Likely Finish Ballasting On H.B. Road

Ottawa.—Twenty-five miles of the Hudson Bay Railway remains to be ballasted, according to officials here, and when that is done the road will be ready for heavy freight. Given favorable conditions, three weeks will be all that is necessary to finish the work.

Light traffic has been running over the railway all summer while during the winter months considerable heavy freight, including equipment and material for the harbor works at Fort Churchill, was taken in.

Structures at the port are progressing rapidly. The foundations for the railway terminals, roundhouse, etc., are already above ground. In the harbor itself dredging is being carried out. Churchill's population totals about 550 men, all department of railways workmen.

There are also a number of Indians, a Hudson Bay post and a Mounted Police post in the neighborhood.

## Western Creameries Win

Honor Of Exhibiting Highest Grades Of Butter At Canadian National Exhibition Goes To Manitoba

Toronto.—Western Canada, represented by creameries in Manitoba, won the honor of exhibiting the highest grades of butter at the Canadian National Exhibition. Judging of butter and cheese, principal items in an industry yielding in excess of \$100,000,000 annually in Ontario alone, concluded recently.

George H. Barr, dairy commissioner for Ontario, said he had no excuses to offer for the failure of Ontario entries to outpoint those from the west. He was prepared to take off his hat to the westerners for the quality of their work.

The silver cup for the highest scoring creamery butter was awarded to J. G. Gallagher, Winnipeg.

### Saw Desapitates Child

Quebec.—When something went wrong with the mechanical saw Antoine Blouin was operating, the wheel decapitated Yvette, his thirteen-year-old daughter, completely cut off one of Blouin's arms, and partly severed one of his eleven-year-old son's arms. The accident occurred at St. Sebastian, Beauce County.

### Regular Arctic Mail Service

Ottawa.—A regular Arctic mail service between Fort McMurray, Alberta and Alkivik, Northwest Territories via northern trading posts will be inaugurated early in November, according to an announcement by Hon. Peter J. Veniot, postmaster-general. Details of the new service have not been made public.

### Sleeping Sickness In Japan

Tokyo.—Widespread sleeping sickness with a high mortality rate was reported from the southwestern prefectures. There were known to be 202 cases with 73 deaths from the disease, which was believed to be the result of the severe summer. Okayama was the hardest hit with 113 cases and ten deaths.

Over 35,000,000 are registered in Sunday Schools throughout the world.

### NOTES AND COMMENTS

The Hon. R. B. Bennett talks in terms of "Big Business," but it is business which affects all Canadians—wage-earners, manufacturers and all others who depend on Canadian business for their livelihood. If this young country with ten millions of people and immense natural resources and potential wealth, is to become a mere adjunct of other great manufacturing countries, then it is right in line if the present policy is continued, of sending hundreds of millions of dollars out of Canada to buy goods which should be manufactured here.

By all the signs our next Dominion election will have for its principal issue the tariff. If it is that that Canada is the only country represented in the League of Nations which has lowered its tariff since the war, making it easier for other nations to sell us their manufactured articles, then the reason why so many Canadians find employment outside of Canada is apparent.

It means that we are selling or rather giving away our birthright, because we have an "inferiority complex." It is high time that Canadians realized that if we are to have prosperity, work for all and adequate wages, we must keep more of our money at home and make a large share of the manufactured articles which other nations are making for us. Canada is in some respects a dumping ground for coal, fruit and other things to our undoing. Our own interests demand a vital place in our political thought and actions, for no nation can become great by playing second fiddle.

It is a very debatable subject, with diverse opinion by men who have given careful study to it. An opposite view is expressed by the Manitoba Free Press, as follows:

"Canadian farmers who are determined to shut out butter from Australia and New Zealand might well give some thought to the same argument. All they can see is that a certain amount of butter comes in from those countries; shut it out, and will they not get this market for their own butter? It looks quite simple.

"But let us look a little closer. The automobile that goes to the Antipodes is made by Canadian mechanics; and Canadian mechanics eat butter. The Canadian newspaper that goes to Australia and New Zealand is likewise the product of an army of workers who also eat butter. So with our lumber exports, our canned-salmon exports and all the other shipments which go to make up the 30 million dollars' worth of exports which we send to Australia and New Zealand—back of them are Canadian workers who consume the products of the Canadian farms.

"Well, then, let us suppose that Canadians embargo butter imports which amounted last year in value to more than \$8,000,000, and also let us suppose that New Zealand and Australia in retaliation should buy their newspaper from Norway and their motor-cars from Great Britain. The farmers get an additional revenue, by the exclusion of the butter, but—don't they lose, on the other hand, a market not only for butter but for other products through the loss of employment by thousands of workers who are their patrons and customers? On the balance, if the transactions could be traced, they might easily be losers."

With such conflicting opinions on the tariff, the man on the street may easily be confused, but one thing is certain, that results speak for themselves, and it is found that circumstances demand higher tariff to furnish employment for many more Canadians than at present, without increasing the cost of manufactured articles to the buyer or consumer, there is only one course to pursue. Certain it is that in face of the trend in other countries, a change in policy is required if Canada is to progress.

The Journal is always pleased to receive local news items, and is possible to get all the items but readers and subscribers can co-operate and so help to make the local paper of more general interest. Life after

all is made up of our daily doings, and it is mostly in our neighbors that we are interested.

Hasty conclusions which frequently turn out to be wrong are often arrived at. It is a good plan to meditate for a while before rendering a decision, in case you may regret it later. Of course, decisions must not be delayed for an undue length of time, and quite often the man who makes a quick decision in a matter of business may gain an advantage. But in the majority of cases it is wise to observe the advice of "look before you leap." It may save heart-burnings later.

There is hardly anything in the world that some man cannot make a little worse and sell a little cheaper, and the people who consider "price only" are this man's lawful prey—John Ruskin.

### Here and There

Statistics gathered by the New Brunswick Government bureau of information and tourist travel show an increase of 25 per cent. in the number of motor tourists from the United States entering Canada at border points of the province starting their vacation in Canada.

His Excellency the Governor-General of Canada will extend his patronage to the Canadian Pacific series of concerts of British and Canadian music to be given across Canada, beginning in September and continuing until Spring of 1930, according to information given out by J. Murray Gibson, general publicity agent of the railway.

Fishing bowed to chivalry one day recently at St. Ignace Island, Canadian Pacific angling resort in the Georgian Bay, when Judge B. Williams of Jackson, Mich., got a bite simultaneously with his wife, both fishing from the same boat. The guide couldn't handle the canoe so that both anglers would have a chance to land a fish, so the judge put pressure on his catch which broke away. Mrs. Williams, after a half-hour fight landed a fine fish.

Lord Luke of Pavenham, chairman of Bovril Ltd., arrived in Canada recently on the Empress of Australia en route to Australia. His Lordship is operating a settlement scheme in the Argentine whereby farmers rent lands from a company, paying 15 per cent. on the company's marketing of their crops. He is contemplating a similar company in Australia in connection with sheep raising. He will also examine possibilities in the Prairies for a similar settlement organization.

Heavy entries are reported for all classes of athletics, piping and dancing events to be decided at the Highland Gathering and Scottish Music Festival to be held at Banff, August 30-September 2, also for the Dominion track and field Championships to be held there Labor Day. A practically new track has been built at Banff to accommodate the sports scheduled.

Dissolution of the present Japanese Government and the advent of a new one within a year is predicted by Viscount E. Mushakoji, Japanese Minister to Scandinavia, who arrived at Vancouver recently aboard Canadian Pacific steamer Empress of France on his way to resume diplomatic duties at Stockholm. The present Japanese Premier is in minority control of the Diet.

William Baird, steamship passenger traffic manager of the Canadian Pacific Railway who inspected the Bremen in New York recently, said that in view of the shorter distance between Cherbourg and Quebec as compared with Cherbourg and New York, the 40,000-ton new Canadian Pacific liner Empress of Britain to be placed in Atlantic service next spring, might make a strong bid for the blue flag of the Atlantic. This giantsess will be an oil burner 726 feet long, 97-foot beam and will carry more than 1100 passengers in first, second and third class.

Paul Scull, all-American half-back and star of the University of Pennsylvania, has added to his laurels by earning in company with Jay Gates and Ed Hopkins the coveted gold button of the famous order of Trail Riders of the Canadian Rockies. With a cook and guide, the trio made an expedition from Banff to the Columbia Ice Fields, said to be the largest body of ice south of the Arctic Circle.

### MacLean's Magazine

Twice a month—24 issues a year.

\$2.00 for 1 year

\$5.00 for 3 years

In 1928 the editorial plans for MacLean's includes the printing of five booklength novels; four novelettes, 108 short stories, 118 major articles of Canadian National interest.

In short, approximately, 355 main features.

Approximately 308, that is to say, 92 per cent. of the editorial contents of MacLean's Magazine it is estimated will be contributed by Canadians.

This is a big buy for only \$2.00 for one year.

## Local News

Capt. R. F. Barnes returned last Saturday after spending two months at Sarcee with the R.C.A. His mother is at present visiting in Manitoba.

Articles for sale should be advertised in The Journal classified ads, whereby the homes of Coleman may be reached more quickly than by any other method. The minimum cost is 35c.

Mr. A. E. F. MacLean, manager of the Royal Bank, Weyburn, and Mrs. MacLean and three daughters, made a brief visit with Mr. and Mrs. Halliwell on their way east from a motor trip to Vancouver. They were impressed with the beauty of the mountain scenery on their trip through the Crows Nest Pass.

Will Lonsbury, who is now working at the Cadillac Coal Co. plant at Wallace, was badly burned on the side of the face last week while mixing a solution in which sulphuric acid was used. So quick was the action of the acid that his clothes were burned. He came home on Thursday evening to rest for a few days.

The extreme bravery of a pigeon is recorded on a plaque unveiled at Verdun. "The Pigeon of Verdun" was the courageous bird which carried a message through from the defenders. It flew through thick smoke and gas unerringly to its dove-cote some miles away, and was actually cited in dispatches of the day for bravery. The plaque bears above the inscription a pigeon in flight. This was the pigeon left the defenders and, apparently, their last means of communication with the relieving forces.

Miss Millicent Cox has accepted a position on the staff of the Nanton school and will leave on Sunday evening. Miss Dorothy Cox will resume her duties on the Blairmore staff, Miss Florence on the Coleman staff, while Miss Mabel Cox, R.N., will resume her duties on the staff of the General Hospital, Calgary, and Miss Norma Cox, undergraduate nurse at the General Hospital, will again resume their duties on Monday.—Pincher Creek Echo.

### NOTICE TO MERCHANTS

Counter Check Books may now be obtained through The Journal office, as we have the sub-agency for McCaskey's Limited of Galt, Ont. Best quality books at lowest current prices sold. Keep this in mind when you are asked for orders by out-of-town salesmen, and place your order locally.

Attend the K. of P. whist drive and dance on Saturday evening.

Mrs. William Wilson and daughter have returned from a month's holiday at the coast.

Vegetables from Fauville's gardens which were exhibited at the Bellevue exhibition on Labor Day were awarded prizes. The Fauvilles have successfully raised vegetables for several years.

### Picture Was Enjoyed

"Mademoiselle from Armentieres," the British film shown at the Palace on Tuesday, was exceptionally good in every detail. It vividly recalled the war days, and the scene showing a band of His Majesty's Foot Guards marching from Buckingham Palace stirred pleasant memories of the famous old city. The acting by the leading players was remarkably good and not in the least exaggerated.

### Display Town Names

Alberta towns on main or secondary highways might well adopt a plan of having the name of the community displayed on board or electric signs. While some have such signs, they are scant in num-

## "Jim is Happy!"

Naturally, you will say—"Why?" The reason: Because he has finished paying for his home, and will now have more cash to invest in other directions. He might have continued paying rent during his lifetime. Instead, he has an asset which saves him money and gives comfort to his family. And it seems but a short time since he commenced payments on the place.

## You'd Like to be Happy, too!

I can tell you of as good an opportunity as Jim took advantage of. The properties I have listed will give you an opportunity to purchase a home for a cash payment and the balance the same as paying rent.

## Call on Snowdon

and he will gladly discuss this with you. Think of the amount you pay in rent, and you'll quickly decide to find what opportunities will be available to own a home. It is worth the effort. Moreover, it is the SAFEST INVESTMENT anyone can make. Decide to call at the office of H. SNOWDON and find out more on how to

Everyone Cordially Invited. Admission for Evening 10c

## The Salvation Army Annual Harvest Festival Appeal

We wish to announce that our yearly Harvest Festival Appeal will be made in all the towns of the Crows Nest Pass during the month of September.

This money is to be used for local purposes.

We thank you for your splendid support in the past and although times are rather hard we trust you will do your best for us.

May God bless you in the giving.

Lieut. J. B. Mackings.

Lieut. J. Zoutendyk.

### The Newspaper Guide

The newspaper that carries a good line of advertisements is to the shopper what the time table is to the traveler and the public-hed guide to the tourist. Busy people start to study these advertisements in the home or in the office, and before they start shopping they know where they are going. In fact, business places are points of interest to all tourists, and non-advertiser puts himself outside the pale so far as strangers are concerned.—Kimberley Press.

### Council Sets Mill Rate

At the regular meeting of the Town Council on Monday night, estimates for the school and town for the year 1929 were considered and the mill rate of '29 was arrived at, being town 10 and school 19.—Blairmore Enterprise.

Tom Johnson, with his wife, has returned from Arrow Lake, B.C., improved in health and looking fine.

## Mothers! Have Your Child's Feet Fitted Properly By

THE NEW VISIBLE SYSTEM OF FITTING

(Patented 1920)

Exclusive With

## Jack and Jill

Cushion Sole Shoes  
for Children

BY THIS Jack and Jill method of "Visible Fitting" there is no more guesswork; the child's foot can actually be seen in the shoe, and cramping of the little toes, that grow so quickly, avoided. Children thus fitted will not need arch supports and other appliances in later years. For never does a "Jack and Jill" Shoe bind growing bones or muscles. Firmly constructed yet flexible as a glove, they allow the feet to grow unhindered. Sturdy and strong to stand the wear and tear of active youngsters, yet priced very moderately.

Jack and Jill Shoes are Endorsed by Physicians Everywhere  
Bring in the Children and have them properly fitted by

Antrobus

## A Feature for Saturday Fall Millinery Opening Sept. 7

Something Entirely Different are the New Hats for Fall. We are featuring Hats for MISSES, YOUNG WOMEN and MATRONS who want to look young, chic and a wee bit different. All reveal the earmarks of New Fall Goods. Brims that widen on the sides, and off the forehead lines, with new interest in the new back trimmings. These are details which Paris modistes propose; for they know the result is not only chic, but graciously complimentary to the wearer.

Call and see the latest, as always, at  
**Laslett's, Coleman**

## Here It Is!

No more runs in Silk Hose or Lingerie

## Personal and Local

Raymond Spillers has gone to Calgary to commence studies at the Normal school.

Mr. and Mrs. Whiteside and daughter spent the week-end at Waterton Lakes Park.

Miss Milda Bond and Miss Ella Celi returned this week to Holy Cross hospital, Calgary, after spending two weeks' holiday.

Look up the program of the Palace theatre. The programs are interesting, with the special weekly Fox News giving the principal current events of world importance.

P. G. Thomas J.P., Paul Drinkie Jr., Mr. Prosser and Mr. Harper, all of High River, spent Monday here, the guests of Mr. and Mrs. Frank Celi of the Palm Cafe.

Ethel Wilson, a former Coleman high school student, who last term completed her Normal course, has gone to Nanton, where she is taking charge of a rural school.

Jean Pattinson and Betty Naylor were among those who left for Calgary normal school. Dora Burrows has left for Edmonton normal. There are a number of others whose names have not been secured.

Dr. and Mrs. Borden and children spent a holiday at Waterton Lakes, and during the doctor's absence Dr. McConkey of Edmonton has been here, with Dr. Annett, assistant to Dr. Borden.

Mae Bell left on Monday night for Calgary to commence a course of commercial bookkeeping and stenography in Garbutt's Business College. She has been a student at Coleman public and high schools, and her friends wish her success.

Sidney White returned last week from a visit east to Preston, Ont., and Port William, Ont., spending part of his vacation with his mother at the latter city. He commenced his duties this week on the high school staff at High River.

The public read the newspapers for news of the stores. There is no medium so effective as the local newspaper, for it goes into the homes, where people can read and study from the advts. the places where to buy advertised goods.

The handsome parrot owned by Mrs. John Watson at Fan 98 has not been killed by a hawk, as was rumored last week. This bird is well known by those who pass the fan house, and quite frequently Mrs. Watson allows it to fly in the trees around their home.

The meetings being held in the K. of P. hall for children by Messrs. C. C. Bowen and J. M. Fairholm are proving very interesting. Illustrated lectures on "Pilgrim's Progress" are given, and the meetings continue till Sunday. Adults are welcome as well as the children.

Caretaker Paterson hoisted the Union Jack at the school grounds on Tuesday morning, and the cheerful ringing of the bell and the merry shouts of the children is a welcome change after the two months' period of comparative quiet in the neighborhood of The Journal office.

Antrobus' Shoe Store, ever on the lookout to improve its service to customers, announces a new visible system of fitting children's feet with "Jack and Jill" cushion sole shoes for children. Read the description in their attractive advertisement in this issue, and watch for further announcements.

Mrs. D. A. McKinnon of Kimberley was a visitor with friends here during last week. Being a former Colemanite, she has many acquaintances here, who were pleased to see her. She speaks very highly of Kimberley and stated that the Ladies' Aid there had quite a busy time catering for the banquet to the Hon. R. B. Bennett, K.C., on his recent visit.

Alex. McDowell, of Blairmore, aged 13 years, son of the telephone superintendent, passed his grade VIII exams with an average of 92, an exceptionally good showing. He left on Tuesday with his mother for Vancouver, where they will live, owing to Mrs. McDowell having to move on account of her health, which has been rather poor since the family moved there about two years ago.

## Forest Fires Caused

(Continued from Page One)

that runs from Crows Nest to Corbin. He stated that the flames were leaping a hundred feet into the air and it looked very dangerous indeed. Preparations were made with a view to taking out men early next morning, but luckily about 6 a.m. rain began to fall and continued throughout the day.

Reports from Fernie stated that not since the disastrous fire in 1908 were conditions so dangerous, and buildings on the outskirts of the city were destroyed. The town of Waldo, west of Fernie, reports a fire loss of \$200,000, in buildings, the fire starting from a spark from the planning mill there, alighting on the roof of a nearby building.

Wednesday evening, despite the all-day rain of Monday, there was a smoke pall over the mountains west of town, apparently from fires still smouldering in the mountains. The heavy rain, though it spoiled the Labor Day holiday, was very welcome and made everything feel much easier after the feeling of tenseness and discomfort for the previous three weeks.

## Here and There

Honorable George, aged ten, and Honorable John, aged 8, sons of Canada's ranching peer, Lord Rodney and descendants of a famous British Admiral, recently travelled 4,000 miles from Port Saskatchewan, Alta., to England, to enter a public school in the Old Country. They took the long journey unaccompanied, travelling on Canadian Pacific lines and by S.S. Montclare. C. P. R. officials looked after them on the long trip.

R. Hon. L. C. M. S. Amery, secretary for the Dominions in the Baldwin administration, who arrived in Canada on the Express of Australia recently travelled straight across the Dominion by Trans-Canada Limited, crack Canadian Pacific flyer, for Banff and Lake Louise whence he reached his objective and namesake, 11,000-foot peak which he will climb.

Miss Georgia Englehard, daughter of a New York lawyer, is busy scaling peaks and establishing climbing records around Lake Louise. She climbed six peaks up to 12,000 feet in height around Lake O'Hara in one week. In addition to these exploits she has made a three weeks pack train trip.

Adding to an imposing list of winning gains at leading exhibitions over the prairie circuit earlier in the season, the championship Holsteins herd of the Canadian Pacific Railway supply at Strathmore Farm gathered ten firsts, five seconds, five thirds and the Veterinary Fair, made a clean sweep in the bull classes with junior and reserve senior championships in female classes and in group classes won the first for exhibitors, first for young herd, first for progeny of cow, second in breeders' herd and second in get of sire.

Judges of piping and dancing at the forthcoming Banff Highland Gathering and Scottish music festival to be held August 30, September 2 have been announced. They are, Colonel Alexander Fraser, Donald E. MacPherson, Murdoch McLeod, George Murray, all of Toronto; William Ferguson, of North Bay; Neil Sutherland, of Regina; and Alexander Hoyle of Medicine Hat. Coincident with the Festival, the Dominion Field and Track championships will be decided at Banff Labor Day.

Output of creamery butter in Saskatchewan for the first six months of the year is exactly 45% greater than for the similar period in 1928, according to a report of the dairy branch of the provincial department of Agriculture. In the first half of 1929 it was 6,128,044 as against 4,215,349 pounds in the first half of 1928.

The Canadian Pacific Railway will be represented at Fall Exhibitions in Eastern Canada this year at Toronto, Quebec, Sherbrooke, Saint John and Fredericton by models of the system's scenic, hotel, oriental and general details of the company's travel, express and telegraph activities. There will be a special building devoted to C. P. R. matters at the Toronto Exhibition, while activities dealing with other parts of the country will be shown at other cities. A number of special trains will be run to these Exhibitions.
